

BioScan MSA

BioScan MSA provides a perspective on the state of your body's energetic health. If you've ever wanted to get a peek at what's really going on inside your body, this is your chance!

How Does the BioScan MSA work?

The BioScan MSA allows your practitioner to perform a comprehensive scan which measures the flow of energy through acupuncture points associated with your body's major systems and organs.

By carefully analyzing this energy flow in each of the meridians, your practitioner will be able to evaluate whether any of these pathways are blocked or restricted.

When your meridian pathways are blocked, you may experience weakness, illness, or chronic disease. The BioScan MSA provides your practitioner with the feedback which can be used by your practitioner to create a customized protocol for you and your journey to strengthen and balance your body.

Unlike other bioenergetic testing devices, the BioScan System is an FDA Cleared, non-invasive and pain free method to gather important data from your body.

The BioScan does not diagnose, treat or cure any disease.

Who cannot be scanned?

In an overabundance of caution, the BioScan will not be used on pregnant women or on any person with any electrical device implanted in the body.

Did you know that proper nutrition could help you with the following ailments?

- Depression
- Low energy
- Low libido
- Heartburn
- Allergies
- Insomnia
- Menstrual problems
- High blood pressure
- Hair loss
- Weight gain
- Anxiety
- Constipation
- Memory loss
- Dry skin
- Acne

How is the MSA Scan performed?

The MSA Scan is a non-invasive screening. No uncomfortable scratch testing or injections are necessary!

The Procedure:

You will hold a small, brass HandMass in one hand while your practitioner uses a stylus to touch various acupuncture points on your hands and feet. Each point is associated with certain organs or systems in your body.

Report Findings:

The data gathered by the BioScan MSA Scan is plotted on a colorful and easy to read report. This data is analyzed by your practitioner and a customized plan is created to help strengthen the body and put your body on the path to a balanced and efficient state!

Sick & Tired of Feeling Sick & Tired? We Have Solutions!
