ANNA AYCOCK

CNC

Coach with the Board of Alternative Natural Health Sciences. She holds a BA in Psychology and is certified in the Kalish Method of Functional Medicine. She sat on the Wellness Panel of the Heimerdinger Foundation (2011-14) and is a member of the Member of American Association of Nutritional Consultants (2010 - present). She also holds a Christian Minister's License and is currently the Certified Nutritional Consultant and Light Energy Coach at Integrated Spine and Joint at Westhaven and also at DesiNou, LLC.

Anna's interest in holistic wellness stems from her personal journey. She had suffered for many years from chronic fatigue syndrome, joint and muscle pain, and multiple infections. A chance appointment with a holistic dentist led her not only to wellness but also to go on to study and qualify. Feeling better, encouraged her to learn all that she could about natural healing and holistic health. Anna is now truly passionate about sharing this knowledge, and the resources that have helped her. One of the more unusual ways that Anna uses the MSA and VLEdit, is to help her create individual essential oil customs for her clients, creating the ideal blend for each individual helping them to achieve emotional balance, stamina, and immunity.

The screenshot shows the BIOGAIN SRT software interface. At the top, there's a menu bar with options like 'New Visit', 'Open Visit', 'Perform Report', and 'Disclaimer'. Below this, a patient's hands are shown with 'AL-1b*R' and 'AL-1b*L' labels. The main window displays a list of test results for 'Rachel', Visit # 7, dated 6/14/2017 10:09:19 AM. The results are organized into a table with columns: Point ID, Item, Dilution, Outcome, and Type.

The screenshot shows the homepage of the GAPS Diet website. The header includes the site name 'GAPS - Diet?' and a navigation bar with links for 'Home', 'Forum', and 'Blog'. The main content area features a large blue box with the text: 'GAPS diet - the diet for helping with learning disabilities, psychiatric disorders and physical problems, such as autism, hyperactivity and attention deficit, dyslexia, dyspraxia, depression, schizophrenia, bipolar disorder, obsessive-compulsive disorder, eating disorders, epilepsy and more'. To the right, there's a sidebar with a list of links: 'GAPS - What is it?', 'GAPS Treatment', 'GAPS Diet', 'Fussy Eaters and Failure to Thrive', 'Recipes', 'Supplements', 'GAPS Family', 'New Baby', 'Food Allergy', 'FAQs', and 'Find a GAPS Practitioner'.

KEY TIPS FROM:

HAPPINESS IS BALANCE ...

1. Help clients understand that Healing Crisis can mean progress. They are embarking on a journey, and they may feel worse before they get better
2. Use the HOLD folder to keep track of case histories.
3. Use the Virtual Library to create custom essential oil blend recipes.
