

MSA & SRT

How can they benefit the Practitioner and the Patient when used together

START WITH MSA TEST

- FIRST VISIT **FULL TEST ALL 58 POINTS** discussing the point measurement with the patient after each reading to obtain confirmation
- SECOND VISIT and ongoing visits **CMP LIST 40 POINTS** – still discuss the point measurements after each reading and the shifts
- ANOTHER OPTION TEST RIGHT SIDE OF THE BODY ONLY (Hand and Foot) **27 POINTS or 20 POINTS**
- REMEMBER RIGHT SIDE OF THE BODY IS CURRENT INFORMATION
- LEFT SIDE OF THE BODY IS INFORMATION OF THE PAST
