

MSA 149 SOFTWARE FEATURES & BENEFITS

Feature	Benefits	Quick Screen View
<h3>Word-Wrapped Reports</h3>	<p>Items word-wrap instead of truncate in several reports.</p>	
<h3>Visit Date Editing</h3>	<p>The visit date can be corrected, if needed, by double-clicking it.</p>	
<h3>Default Point List</h3>	<p>Choose which point list is automatically selected at the start of a visit.</p>	
<h3>Several Fixes and Improvements</h3>	<p>Thank you for your feedback!</p>	

MSA 149 SOFTWARE FEATURES & BENEFITS

BioScanMSA Ivory

The only EAV Software
designed specifically
for the Dental Field

The screenshot displays the BioScanMSA software interface. At the top, there is a menu bar with options like 'Visit', 'Edit', 'View', 'Navigate', 'Test', 'Options', and 'Tools'. Below the menu is a toolbar with icons for various functions. The main area is divided into several sections:

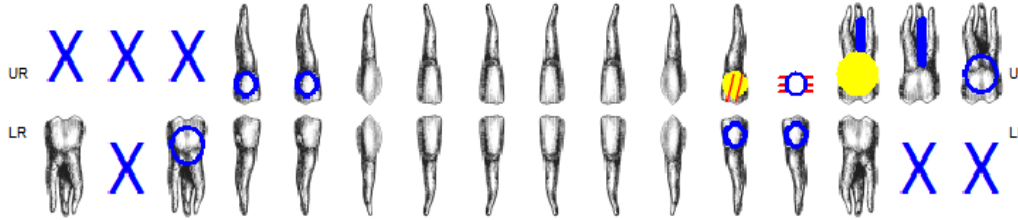

- Left Panel:** Contains 'POINT READINGS', 'VIRTUAL LIBRARY', and 'CUSTOM LIBRARY' tabs. Below these are 'Point Lists' (Polarity, Allergy, Dental, Dental Primary) and 'Available Holds' (T-5, T-4, T-3, T-2, T-1, Nosode Bacteria, Nosode Virus, Teeth that are yucky, T 01 / 8+).
- Center:** A dental chart showing a panoramic view of teeth with various points marked. A table below the chart shows 'Base' and 'Drop' values for points T01 through T16. The table has columns for 'Base' and 'Drop' values, with some cells containing 'X' or '0'. Below the table is a 'Point List' with 'Opaque' and 'Transparent' options.
- Right Panel:** A table with columns 'Point ID', 'Status', and 'Condition and notes'. It lists points T 04 / 5+, T 03 / 6+, T 02 / 7+, T 01 / 8+, T 25 / 1-, and T 26 / 2- with their respective statuses and conditions.
- Bottom Right:** A graph titled 'Point Reading' showing 'Amplitude' on the y-axis (ranging from 5 to 95) and 'Seconds' on the x-axis (ranging from 1 to 5). The graph shows a horizontal line at approximately 55 amplitude.

At the bottom of the interface, there is a patient information section with fields for 'Client', 'PT Name', 'PT Desc.', 'PT Notes', and 'Visit Notes'. Below this, it displays 'T 04 / 5+ Second bicuspid upper right, 5RU, international 15, 5+'.

- Easy to chart the patient's teeth with a current panorex x-ray
- Test patients for compatibility with dental materials
- Comprehensive scan of each tooth performed to determine if it is balanced
- Out of balanced teeth are further scanned to determine if the tooth is the problem or if it is a systemic issue
- Advanced training allows for use in dental surgery
- Full, colorful, easy to read reports which provides valuable information for the Dentist
